2. The maximum allowable weight is 250 (two hundred fifty) pounds. The Board of Directors will determine the eligibility of any participant over that weight.
3. All participants will weigh in at the league sign-ups. This allows the league to divide the teams as equally as possible and to set striper weight limit.
4. A participant over the League determined weight for his age group, will have a black stripe of one inch running from front to back, affixed to their helmet. All backs and receivers and those whose weight was no more than 5 (five) pounds over the set limits of each division at sign-ups will reweigh on the Thursday of the second week of practice to verify eligibility. Any player at that time that is over the 5 (five) pounds will immediately be designated a linemen. Any player that weighs in between the set limit and 5 (five) pounds over will have until Tuesday of the third week to make the designated weight set for their division. All weighing and final weigh-ins of players will be done in front of a head coach and a board member.
5. The kick-off and receiving teams will consist of non-striped players. Exceptions:

 - c. A black-striper can kick extra points, field goals, and punts, but no advancement of the ball is allowed (must kick). A black-striper must play on the first line of the receiving team, or on either side of kicker on kick-offs.

No variations or trick plays are permitted - if a black stripe

player is back to kick, it must be an attempt to kick - any other type of play, regardless of the situation, results in the play being blown dead and the loss of down and possibly loss of yardage or loss of ball.

A kick from placement, that is blocked, so that the ball does not carry across the line of scrimmage, is immediately blown dead and is returned to the point from where it was kicked.

A kick that carries across the line of scrimmage, but short of the goal line, shall be treated as any other kick-it may be fielded - Advanced - and downed as any other free or scrimmage kick.

A kick that carries into the end zone but fails to cross the cross bar between the uprights, is a touch back and will be returned to proper placement by the officials.

Black-striper on the defensive line may not be any wider than the outside shoulder of the offensive tackle, which is defined for the purposes of this rule, as the second interior lineman outside the center. When the offense is running an "unbalanced" offensive line, this may result in a black striper on the defensive line lining up on the outside shoulder of the last player on the line of scrimmage which by league rule must be a non-striper. If this does happen the result is no penalty.

Any deviation of the above shall result in a 10 (ten) yard penalty.
